Can you prove you're smarter than ChatGPT?

ChatGPT is threatening to make writing a thing of the past. English teachers worry that it will write student essays and lawmakers fear that it will create fake news. Still, computer scientists believe it will improve our future. But everyone seems to agree that ChatGPT isn't perfect. How do we know what ChatGPT is best and worst at?

1. **Ask** ChatGPT to explain something you don't know much about. Like:
   - How does a plane land in high winds?

2. **Ask** it to explain the **impossible**. Like:
   - What are the steps for milking a woolly mammoth?

3. **Ask** it to do something **shady**. Like:
   - Write an email to my boss telling him he's doing a horrible job.

4. **Ask** it to explain something you **know a lot about**. Like:
   - How can I get better at lane control in League of Legends?

Can you prove you're smarter than ChatGPT?

ChatGPT is an 8/10 for me, but I'm better than it at Minecraft.

- ask ChatGPT
- ask ChatGPT about how planes land
- don't ask ChatGPT about Minecraft cheats
- ask ChatGPT about woolly mammoths
- ask ChatGPT how to write a good email
